JOREX LOREX AI Surveillance Solutions combine advanced algorithms with high-performance hardware to deliver accurate real-time insights, reduce false alarms and empower proactive decision-making.

KEY AI FEATURES

HUMAN & VEHICLE DETECTION

Accurate classification of human and vehicles minimizes false alarms and improves efficiency.

FACE DETECTION & RECOGNITION

Identify and recognize individuals in real time for access control and security monitoring.

PERIMETER PROTECTION

Detect intrusions, line crossing, loitering and unauthorized access instantly.

SMART MOTION DETECTION

AI filters irrelevant motion (triggers like trees, rain, shadows) and focuses on real threats.

OBJECT CLASSIFICATION

Classifies people, vehicles, two-wheelers and objects for faster incident response.

CROWD DETECTION & COUNTING

Monitors crowd density and counts people in real time for better crowd management.

BEHAVIOR ANALYTICS

Detects suspicious activities like running, falling, fighting or left object for proactive alerts.

LOITERING DETECTION

Detects loitering in restricted or sensitive areas and generates instant alerts.

LEFT / REMOVED OBJECT DETECTION

Detects unattended or removed objects to prevent potential security risks.

ANPR (AUTOMATIC NUMBER PLATE RECOGNITION)

Captures and recognizes vehicle number plates for access control and traffic management.

HEAT MAP ANALYTICS

Visualize high footfall and movement patterns to optimize operations and resources.

AUDIO ANOMALY DETECTION

Detects unusual sounds like screams, gunshots or breakage for instant audio alerts.

AI ADVANTAGES

HIGH ACCURACY

AI algorithms ensure precise detection and minimal false alarms.

REAL-TIME ALERTS

Instant notifications for faster response and action.

SMART SEARCH

Quickly find events and objects with intelligent video search.

REDUCED OPERATIONAL COST

Automated monitoring reduces manual effort and costs.

SCALABLE & FLEXIBLE

Solutions designed to scale with your growing needs.

DATA-DRIVEN INSIGHTS

Make informed decisions with powerful AI analytics.
